

BOIL WATER NOTICE

Water Main Break resulting in loss of pressure in the
Village of South Blooming Grove Water District 1, Worley Heights

BOIL YOUR WATER BEFORE USING

Bring tap water to a rolling boil, boil for one minute, and cool before using. Or use bottled water certified for sale by the New York State Department of Health. Boiled or bottled water should be used for drinking, making ice, washing dishes, brushing teeth, and preparing food until further notice.

This Boil Water Notice applies to customers in Water District 1, Worley Heights pressure zone; namely the following streets: Merriewold Lane South, Mangin Road, Pine Hill Road, Hawthorne Drive, Strawberry Lane, Old Town Road, Green Road, Sears Road and Michael Court. If you lost pressure or did not have water, you are in the effected area.

At about 10:00 p.m. on Wednesday, October 14, 2020 and continuing into today Thursday October 15, 2020, the water system lost pressure due to a water main break on Route 208 and Mangin Road. When water mains lose pressure, it increases the chance that untreated water and harmful microbes can enter your water.

Harmful microbes in drinking water can cause diarrhea, cramps, nausea, headaches, or other symptoms and may pose a special health risk for infants, some elderly, and people with severely compromised immune systems. But these symptoms are not just caused by microbes in drinking water. If you experience any of these symptoms and they persist, you should seek medical advice.

The break is being repaired today. Samples to lift the boil water order will be taken today and tomorrow.

You should boil water for the next few days until we receive the results of the samples. You will be informed when tests show that you no longer need to boil your water. Updates and future notices will be posted on the Village's website villageofsouthbloominggrove.com.

For more information, please contact:

Village Water Department at (845) 783-4622, Village Hall at (845) 782-2600 or the Orange County Health Department at (845) 291-2331.

Please share this information with other people who drink this water, especially anyone who may not get this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.
