

BOIL WATER NOTICE

Water Main Break resulting in loss of pressure in the Village of South Blooming Grove Water District, Lower Worley Heights (Galveston, San Marcos, Duelk Avenue, Pecos Court, Alamo Court, San Antonio Circle, Laredo Court, Lee Avenue and Rolling Hills Condominium).

BOIL YOUR WATER BEFORE USING

Bring tap water to a rolling boil, boil for one minute, and cool before using. Or use bottled water certified for sale by the New York State Department of Health. Boiled or bottled water should be used for drinking, making ice, washing dishes, brushing teeth, and preparing food until further notice.

This Boil Water Notice applies to customers in Water District, Lower Worley Heights; namely the following: Galveston, San Marcos, Duelk Avenue, Pecos Court, Alamo Court, San Antonio Circle, Laredo Court, Lee Avenue and Rolling Hills Condominium. If you lost pressure or did not have water, you are in the affected area.

At about 7:00 am on Monday, January 18, 2021, the water system lost pressure and/or water due to a water main break. When water mains lose pressure and/or water, it increases the chance that untreated water and harmful microbes can enter your water.

Harmful microbes in drinking water can cause diarrhea, cramps, nausea, headaches, or other symptoms and may pose a special health risk for infants, some elderly, and people with severely compromised immune systems. But these symptoms are not just caused by microbes in drinking water. If you experience any of these symptoms and they persist, you should seek medical advice.

The break is being repaired today. Samples to lift the boil water order will be taken tomorrow and Wednesday.

You should boil water for the next few days until we receive the results of the samples. You will be informed when tests show that you no longer need to boil your water. Updates and future notices will be posted on the Village's website villageofsouthbloominggrove.com.

For more information, please contact:

Village Water Department at (845) 783-4622, Village Hall at (845) 782-2600 or the Orange County Health Department at (845) 291-2331.

Please share this information with other people who drink this water, especially anyone who may not get this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.
