The Planning Board meetings are held on the 3<sup>rd</sup> Thursday of each month. All meetings commence at 7:00 PM.

Prior to submitting an application to the planning board, it is suggested that the applicant meet with the Village Community Design Review Committee (CDRC). Subsequent to the initial filing, the planning board will establish the submittal dates subject to the size and complexity of the application.

The information in this packet is to be used as a guide; you should familiarize yourself with the appropriate sections of the Municipal Code of the Village of South Blooming Grove.

### AUTHORIZATION TO INSPECT PROPERTY

The owner, by submitting an application to the Village of South Blooming Grove Planning Board and by signing this authorization, consents to inspection by Village personnel, staff or consultants of the project site or facility for which an approval is sought and, to the extent necessary, the property owned by the applicant adjacent to the project site or facility. This authorization allows Village representatives to enter upon and pass through such property in order to inspect the project site or facility, without prior notice, between the hours of 8:00 a.m. and 8:00 p.m.

Inspections may take place as part of the application process prior to any decision to grant or deny the approvals sought. By signing this authorization, the owner agrees that this authorization shall remain in effect as long as the application is pending, and is effective regardless of whether the landowner or agent are physically present at the time of the inspection. In the event that the project site or facility is posted with any form of "posted" or "keep out" notice, or fenced in with an unlocked gate, this permission authorizes Village Representatives to disregard such notices or unlocked gates at the time of inspection.

The owner further agrees that during an inspection in connection with this application, among other things, Village representatives may take measurements, may take soil samples and photographs, and may analyze physical characteristics of the site including, but not limited to, soils and vegetation and may make drawings and take photographs.
