Subject: 1 Roanoke Drive

Message Body:

To The Zoning Board of Appeals:

I vote no to the increase in height for 1 Roanoke Drive Congregation Yetev Lev D'Satmar and the reduction in the yard for parking. My concern is fire safety and vehicle traffic.

I would like the Zoning Board and Town Board to consider time constraints and communication requirements on these projects. That temple has been in construction since 2020. There needs to be a faster timeline to completion with each project. Our quality of living needs to be considered and lack of adherence should follow with fines and shutdown of projects.

On the subject of communication. All signs in the village should be in some residents English and Hebrew as some residents read both languages, but not all residents read Hebrew.

Sincerely,

S. Berkowitz
