

**Village of South Blooming Grove Zoning Board of Appeals
Resolution - January 12, 2023**

NAME OF APPLICANT: MANGIN RD LLC
SITE ADDRESS: 585 CLOVE ROAD
ZONING DISTRICT: RC-1 RURAL CROSSROAD-!
SECTION-BLOCK-LOT: 208-1-5
VARIANCES REQUESTED:

1. **MAXIMUM BUILDING HEIGHT:** Increase from 40 feet to 46 feet (including bulkheads and parapets).
-

WHEREAS, an application was submitted to the Zoning Board of Appeals (ZBA) by the above identified Applicant for the variances indicated above; and

WHEREAS, the variances sought to replace the an existing residential structure with a mixed office and retail use, as shown on a site plan prepared by its engineer was reviewed by Fusco Engineering as well as by its planning consultant, Shepstone Management Company; and

WHEREAS, the ZBA determined the application was reasonably complete and, following public notice, held a public hearing thereon on September 1, 2022, at 8:00 pm, which meeting was open to the public via remote means; and

WHEREAS, the hearing was continued to November 10, 2022, and closed on the same date after allowing members of the public to address the board and speak in connection with the application; and

WHEREAS, the ZBA has duly considered public comments received; and

WHEREAS, the ZBA has determined, for the purpose of review under SEQRA, that granting a building height variance is an “Unlisted” action thereunder; and

WHEREAS, the ZBA has, of this same date and as Lead Agency, declared that granting of the requested height variance will not have a significant adverse environmental impact on the environment, and

WHEREAS, in considering whether to grant or deny each of the requested variances, the ZBA engaged in a balancing test, weighing the proposed benefit to the Applicant against the possible detriment to the health, safety and welfare of the community, as well as consider the five statutory factors enumerated in the applicable law; and

WHEREAS, the ZBA herein has addressed the requisite statutory factors in approving the each proposed variance after a review of the recommendation and advice of its planning and engineering consultants, the ZBA members’ knowledge of the location of the site and the relevant surrounding areas and also such material and relevant public input as received; and

WHEREAS, the ZBA considered whether the requested Variance were substantial when compared to the nearby buildings, would improve the physical and environmental condition and

**Village of South Blooming Grove Zoning Board of Appeals
Resolution - January 12, 2023**

character of the neighborhood, and whether the requested variance was the minimum variance required to promote the legitimate interests of the Applicant in due regard to the interests of the general public; and

WHEREAS, the ZBA believes the substantial evidence in the record supports the rationale for the ZBA's determination to grant the requested Variance;

NOW, THEREFORE, BE IT RESOLVED, that the ZBA of the Village of South Blooming Grove finds the Applicant has submitted all required materials, and met all applicable requirements as set forth in the Zoning Code and applicable law for the granting of each requested variance, subject to conditions set forth herein and/or limitations imposed by applicable law, based upon the following findings and determinations:

BUILDING HEIGHT VARIANCE

1. Whether undesirable change would be produced in character of neighborhood or a detriment to nearby properties:

Determination: No

Reason: This variance will not produce undesirable change in the character of the neighborhood or a detriment to nearby properties. The RC-1 District encourages mixed-use development and the neighborhood is characterized by other relatively nearby commercial development.

2. Whether benefit sought by applicant can be achieved by a feasible alternative to the variance:

Determination: No

Reason: The benefit sought by the applicant in this case cannot be achieved by some other feasible method because economic use of the small lot, given its slope specific limitations requires building slightly higher.

3. Whether the requested variance is substantial:

Determination: No

Reason: The variance is not substantial, amounting to but a 15% adjustment and is the minimum needed given the slope and height measurement criteria.

4. Would the variance have an adverse impact on the physical or environmental conditions in the neighborhood:

**Village of South Blooming Grove Zoning Board of Appeals
Resolution - January 12, 2023**

Determination: No

Reason: The variance will preserve and protect the character of the neighborhood and the health, safety and welfare of the community with a use that put commercial services in walking distance of residential development as well as other services. As such, the variance will not cause any adverse impacts.

5. Whether the alleged difficulty was self-created:

Determination: No

Reason: The alleged difficulty was not self-created as the lot was always restricted by the slopes involved, its small size as well as the proximity of a small stream to avoided. It will also allow the type of development anticipated for the District

6. Whether the variance will comply with other Village variance criteria.

Determination: Yes

Reason: Allowing for already anticipated development under zoning for this District ensures the interests of justice will be served by allowing the variance. It will also have no impact on population density and generate no significant traffic or other adverse impacts.

DETERMINATION OF ZBA BASED ON THE ABOVE FACTORS:

Upon the foregoing reasons and evidence in the record of the proceedings before the ZBA, the ZBA further finds that the foregoing variances are the minimum variance that should be granted to preserve and protect the character of the neighborhood and the health, safety and welfare of the community. The ZBA, therefore, hereby makes the following findings in connection with its granting the variances set forth above:

- (a) That the variance are not substantial in relation to the requirement and to other factors set forth herein and otherwise made applicable by relevant law.
- (b) That the effect of any increased population density which may thus be produced upon available services and facilities is not significant.
- (c) That a substantial change in the character of the neighborhood or a substantial detriment to adjoining properties will not be created.

**Village of South Blooming Grove Zoning Board of Appeals
Resolution - January 12, 2023**

- (d) That the difficulties cannot be alleviated by some method feasible for the applicant to pursue other than this variance, or that lesser variances cannot alleviate the difficulty.
- (e) That, in view of the manner in which the difficulties arose and considering all of the above factors, the interests of justice will be served by allowing the variance.
- (f) That the variance will not cause adverse aesthetic, environmental or ecological impacts on the property or on surrounding areas and will not harm the general health, safety or welfare.
- (g) The difficulty addressed by the variance are not self-created.

The ZBA did not identify any detriment that would result to the neighborhood or community by reason of allowing the land to be developed with the variances requested. Moreover, the ZBA, taking into consideration the above factors, finds the benefit to the Applicant outweighs any potential detriment to the neighborhood or community, and, therefore, the requested variance is hereby granted. Nonetheless, the granting of the requested variance shall not relieve the Applicant from obtaining any other necessary approvals, permits, etc. for the use and development of the site.

NOW, THEREFORE, BE IT FURTHER RESOLVED

On a motion by **Member** _____, seconded by **Member** _____ and carried by a vote of ___ Ayes, ___ Naes, with ___ member(s) being absent, that the Zoning Board of Appeals makes the foregoing findings and determinations, and it hereby grants the above-stated variances, which are subject to any conditions stated herein, and the within does not relieve the Applicant from obtaining any other permit, approval, and/or license required in connection with the proposed use of the site.

Dated: January 12, 2022

Zoning Board of Appeals
Village of South Blooming Grove
