Owner's Consent to Visit/Inspect Property Form

The applicant (or agent of the applicant), by submitting an application to the Planning Board of the Village of South Blooming Grove and by signing this authorization, consents to inspection by Village personnel, representatives, staff or consultants, of the project site or facility for which an approval is sought and, to the extent necessary, the property owned by the applicant adjacent to the project site or facility. This authorization allows Village representatives to enter upon and pass through such property in order to inspect the project site and/or facility without prior notice between the hours of 8:00 am and 8:00 pm, Monday through Friday.

Inspections may take place as part of the application process prior to any decision to grant or deny approvals sought. By signing this authorization, the applicant agrees that this authorization shall remain in effect as long as the application is pending and is effective regardless of whether or not the landowner or agent are physically present at the time of the inspection. In the event that the project site or facility is posted with any form of "Posted" or "Keep Out" notice, or fenced in with an unlocked gate, this permission authorizes Village representatives to disregard such notices or unlocked gates at the time of inspection.

The applicant further agrees that during an inspection in connection with this application, among other things, Village representatives may take measurements, may take soil samples and photographs and may analyze physical characteristics of the site including, but not limited to, soils and vegetation and may make drawings and photographs of such.
